PROFILE

Passionate Part 1 Architectural Assistant, graduated with honours from the University of Portsmouth. Experience working in a fast-paced environment, delivering every project to the highest standards and intelligent collaboration to ensure the successful completion of every project I take part in, looking to maximise my potential by fully qualifying as an architect and getting a good education in one of the most prestigious institutes.

EXPERIENCE

PART 1 - ARCHITECTURAL ASSISTANT

ADP Architecture · London · Aug 2022 - Present

Working in healthcare, educational, residential, and food production projects across multiple studio locations across the UK, I have gained invaluable experience on how every RIBA stage functions and how to cooperate with different consultants.

My time at ADP taught me the importance of teamwork and punctuality in deadlines and how to tackle daily issues in large and small architectural studios, having worked in both environments within the same practice.

ARCHITECTURE VOLUNTEER TUTOR

Liceul de Arte "Marin Sorescu" · Craiova, Romania · Jan 2021 - Mar 2021

During the peak of the pandemic, the high school needed help in keeping the lecturing engaging and innovative for the young students.

As a part-time volunteer tutor, I held multiple zoom presentations and workshops for architecture high-school students regarding the early stages of design communication and the history of architecture.

INTERIOR DESIGNER

Viafacilis S.R.L · Craiova, Romania / Dec. 2020 - Jan. 2022

Designed furniture and manufacturing it with a CNC machine for individual clients as well as offered interior design consultation.

My tasks were to design the furniture for the manufacturing team as well as generating detailed CGI renders for the clients. Sophisticated tech was being used in the work environment, such as CNC machines, laser cutters and 3d printers.

FREELANCE INTERIOR DESIGNER

Self-employed · Craiova, Romania / Jan. 2021- Jun. 2021

- Consulted with clients to determine architectural preference to meet overall design goals.
- Refurbished apartments along a team of workers.
- Managed the client's budget and keeping track of the costs of the project.
- Communicated design concepts to the client and workers by computer generated renders and sketches.
- Assisted clients with budget considerations and made recommendations for furniture, kitchen layout, flooring, paint and faience.

MIHAI VASILESCU

EDUCATION

BA (HONS) ARCHITECTURE

University of Portsmouth/ Portsmouth/ England / 2019 - 2022

First-year overall grade: 1st / Second-year overall grade: 2.1 / Final-year overall grade: 2.1

ARCHITECTURE AND DESIGN

Highschool of Arts "Marin Sorescu" / Craiova / Romania / 2015 - 2019

Grades : Architecture: 10/10 / Mathematics 10/10 / Image processing 10/10

INTERESTS

- **Environmentalist:** Prize winner for Hult Prize competition, Portsmouth (December 2019) for a business plan that slows climate change. Interested in sustainable design and always took it as a main principle in my projects.
- **Architecture competitions:** Working in a small team to complete different briefs on short-term deadlines
- **Musician:** Played bass and guitar in different bands at music festivals and concerts with two singles launched in January 2022 and an album to be released soon.
